### Fiji-Tonga - April 2017

Bruce Davies has just acquired this Tin Can cover. Its size permits an even bigger array of cachets than usual, (eight to the front and eleven to the reverse) in a variety of languages and including Bus Post.

The cover is addressed to Niuafouu, endorsed "Per canoe mail, per Mariposa" and bears a Fijian 2d (1<sup>st</sup> oz empire rate) which is cancelled with a Suva cds for 2 Jy 35.

### Hong Kong ex New Hebrides – April 2017

Following our earlier reports on these New Hebrides paquebot covers, Bruce Davies has found another example.

This time it would appear to be from a different sender and to someone in Sandwich Island.

### B. F. Egypt variety – April 2017

A poor example of the Egyptian seal appeared on eBay. It did however boast a cds cancel and showed the variety: chamfered foot to the third M in commemoration.

It sold for £24.

### Bermuda wrapper – April 2017

John Cooper has acquired this label from a consignment of 500 sheets of 1d stamps for Bermuda, dated 11/1/35. I wonder what the parcel's postage was.
